LEC will make reasonable efforts to return repaired products to original specifications, subject to availability of critical components. This may not be possible for discontinued products. In this situation, LEC will provide information regarding an appropriate replacement including pricing.

To the extent that the customer is not at fault and there is no evidence of tampering or attempted repairs, LEC will pay for the return of warranty repaired products to Buyers. In those situations where the customer is at fault, or the product was tampered with, improperly installed by buyer or its agent(s), inappropriate for the use or where there is evidence of attempted repairs, the customer will be responsible for all freight charges for both the return and any replacement parts or augmentation offered.
